

Unika - Responsive One Page HTML5 Template

Unika is a full responsive one page template. Designed By talented [Veronika Poljakova](#). I've **changed** some Design elements to make it a premium quality product.

Unika is Perfect for any kind of personal or business portfolio.

Install: At first extract the zip file. You ll find two folders [Help & Unika-Html]. Upload everything from “Unika-Html” Folder to your root.

Colors: Please remove the comments from the skin you want to use.

Pre-Loader: If you want to remove pre-loader please remove the line number 56
[<div class="page-loader"></div>]

Images: Team images are not included for copy right issue, everything else you can use. They are free for both personal & commercial use.

Plugins: Please see credits section below. You ll find the links for all the plugins used in this template. Go & try to find out the usage instructions from there.

Credits:

[Unsplash.com](#) for images

[Getbootstrap](#) for the responsive grids

[Owl-Carousel](#) for sliders

[Stellar](#) for parallax affect

[WoWjs](#) for animations

[Isotop](#) for portfolio

[CounterUp](#) for fun facts
